Dear David,

Further to your successful debt collection, I would like to thank you for the superb quality of service provided by Specific & General Services

After several months chasing payment without success, it only took a matter of days for you to get the issue resolved. The cheque cleared our bank account within two weeks of initial contact. Not only that but you also managed to achieve free debt collection for Cititec.

Many thanks for your assistance in this matter and rest assured that I will be recommending your company to any clients who have similar problems.

Yours sincerely

Craig Grant
